

ACCESSIBILITY

Accessibility statement

Plus91 wants everyone, including people with disabilities, to be able to use this website and learn about our services. This statement explains the standards we follow, what we have done, and how to tell us if something does not work for you.

Standards we follow

We aim to meet the Web Content Accessibility Guidelines (WCAG) 2.1 at Level AA, the Guidelines for Indian Government Websites (GIGW), IS 17802, and the digital accessibility provisions of the Rights of Persons with Disabilities Act, 2016, in line with SEBI's circular on accessibility of digital platforms for regulated entities.

What we have done

- Text and controls meet WCAG AA colour-contrast requirements.
- The website can be used with a keyboard alone, with a visible focus indicator and a "Skip to main content" link.
- The website uses proper headings and landmarks so screen readers can navigate it, and images have text alternatives.
- Content reflows on small screens and remains usable at 200% zoom.
- Animations can be switched off at any time with the "Animations" switch at the bottom of the website, and your choice is remembered.

Known limitations

- Some documents we publish as PDFs may not yet be fully accessible. If you need a document in another format, contact us and we will provide it.
- An independent accessibility audit by a certified professional is in progress. We will update this statement with its findings.

Report a problem or request help

If you have difficulty using any part of this website, or need information in an accessible format, please contact us. We aim to respond within five working days.

- Email: parth@plus91.co
